Most helpful customer reviews

2 of 3 people found the following review helpful.

Interesting, but not comprehensive

By Krista Casada

In this book, David Kinsley takes a brief look at the murky area where ecological concerns meet religious ones. This is not an in-depth historical study; rather it's almost a series of vignettes, with each description of particular cultural practices serving to illustrate a paradigm for the nexus of these concerns. In other words, there's some fascinating stuff in here, but don't use this text as sole support for any general conclusions.
