I really enjoyed this book

By Jordan

I really enjoyed this book. It helped me to understand all the sound methods out there and also how to use the tuning forks with the Lumalight system. I use tuning forks so now I know I can add the light at the end.

There isn't anything like it on the market

By Mair MacKinnon

I've been using the Lumalight (Spectrahue) therapy with clients for more years than I can count. Julianne is so far beyond her time with everything she creates and writes. Her products and educational information are invaluable to anyone working with energy therapies. There isn't anything like it on the market. If I could give her 10 stars, I would!
