It will certainly not take much time to get this e-book [Hidden Pleasures By Lucia Jordan](#), like when you should opt for e-book establishment.

HIDDEN PLEASURES BY LUCIA JORDAN PDF

A powerful Contemporary Romance. Here is the first book in the 'Hidden Pleasures' Series by Lucia Jordan, written in her signature style of high passion and emotion.

While Madeline tries to resist Liam, the world of pain and pleasure he offers might just be too tempting to ignore...

If real estate broker Madeline Swift wants to keep her job, she needs to make a sale and she needs to make it fast. So when a new client is in the market to buy a property, they're assigned to the disheartened and severely unoptimistic Madeline who comes face to face with the man on whom her job now depends – Liam Benedict.

But Liam is no stranger to Madeline. The boy she had been infatuated with as a sophomore in college is now a man who's nothing like what she remembered. He's older, more sophisticated, gorgeous and impossibly hotter with a new cool, calm authoritativeness that excites and intimidates her at the same time.

Liam knows exactly who Madeline is, and plans to seduce her into a world of sensual exploration that she had been too naïve for all those years ago. The question is—is Madeline now ready for everything that Liam has in store?

Only mature readers should download this book

Great book to get the blood flowing and it is hard to put the book down!

By Smithmed1

This book is very interesting and it grabs you and doesn't let you go. It is about a girl named Madeline and an man she meets named Liam. This is a very good book with explicit sex scenes that are enough to make you blush and get some blood flowing, if you know what I mean. It is part of a four book series and the first book hooks you in and makes you want to read the whole series. It is a fairly easy read and the author writes pretty good. I would recommend this book to my friends and family (that are old enough to read this type of book). I would call it almost an erotic thriller...a good one at that. I don't want to give away too much of the book because you have to learn about it as you read it!

Disclosure: I received this product on a promotional discount from seller for exchange of my honest unbiased review. These comments and my evaluation here are my own opinions. Different people may have different opinions and feelings. I am not receiving any other monetary compensation and I am not required to give a good review, though I always try my best to provide good judgement which will be helpful to others. I am not associated with the seller in any way. I tried to do my best in reviewing this product as I am using it

by myself.

I was fortunate enough to buy this product at a discount and I would buy it again at full price. The discount I get does not influence my feedback or review. I only leave 5 star reviews when they meet my expectations and I would refer to my closest loved ones and strangers. This is my personal experience, feedback and honest opinion of this product, whether it be good or bad.

**** If this review has been helpful, please click YES, or if I've left anything out, feel free to ask. I rely heavily on reviews, photos and experiences when I make my decision to buy a product online and I will only leave a fair, HONEST and unbiased review of each product. I will not deceive anyone or mislead about any product. I would also love to know if I'm meeting those needs and answering any questions you may have in this review or if I need to add anything. Also, your feedback will help me to continue providing quality and helpful reviews.

Thank you for reading!

As much as I like my cheesy "bossy rich guy gets hooked on plain ...

By Christina P.

As much as I like my cheesy "bossy rich guy gets hooked on plain jane and eventually falls in love with her" I just could not get into this book. It is well written as far as spelling, grammar, and actually making some kind of sense as far as sentence structure goes but story line and character development are lacking. She is instantly all over him in her mind, he is a total jerk. He stalks. He is just creepy and while "sexy" is a lovely description I prefer more information on the physical and mental of the male leads in the books I read.

I feel the female lead is a complete moron and I have NO respect for her, she deals with this creepy jerk and still ends up banging him. I feel this says very negative things about her mental stability and in fact says worse things to the women reading the book about what could be acceptable behavior by the creeps out there in the world. While the vast majority of the reading audience will know this is NOT the normal and NOT ok there are some who will read this and think "oh so that is ok" because, like with the need of the most stupid warning labels that should be commonsense, there are people out there lacking said sense.

I also don't understand the gooey belly button thing, that gives me very gross mental images that are highly unpleasant. I likely would not recommend this book to others and feel kind of weird to add it to my Goodreads reading challenge for this year. I would like to say that I did receive this product free or discounted in exchange for a real life experience, honest, and unbiased review. As testers, my family and I strive to give the best and honest reviews of the products we test based on our own personal experiences to help other customers find what they need.

Loose ends galore

By Liz

Most erotic novels take at least 2-3 chapters to get into the meat and potatoes (aka the sex scenes) of the book. This book wasted zero time getting straight to business, with almost no explanation of why the characters were suddenly banging each other. In fact, I'm honestly left baffled by how fast everything moved.

It seems to me that this book is a knock-off of 50 Shades of Grey, down to the mindless doe-eyed (and obviously brown haired) female lead character and the jerkish, insensitive sex addict she falls for. I wasn't exactly expecting it to be a perfect portrayal of how sexual relationships are in real life, but this is so extraordinarily out there and unrealistic that I started chuckling to myself everytime something crazy happened. Half a page in, she's already mentally sleeping with this guy (who shows her zero respect and doesn't seem to care about her until AFTER he's had his way with her?) and two pages in, they're hooked at the hip.

Not only that, but the hawkish way the main male acts is super creepy and bizarre. He stalks her at her workplace, talks loudly and explicitly about doing it with her in front of her coworkers, and magically seems to know exactly where her apartment is without her telling him. In any other real life scenario, this would be disturbing and warrant calling the police, but somehow it's okay because he's sexy. We don't even get an actual description of how this guy looks other than "very sexy". What color is his hair? What does he wear? Does he have straight teeth or crooked?

The only description of any person in here is the lead female, who does an incredibly stereotypical "mirror gaze" and has her looks described to us. Brown hair and green eyes. Super original. Look, I'm not saying I wanted 14 pages of description or anything, but apparently it only matters to the reader that the two of them are hooking up. I would even be okay with just nonstop wall-to-wall sex scenes if there weren't so many inexplicable loose ends just left hanging in the middle of the story. The author doesn't even explain how these two know each other beyond "they used to know each other in the past and now he's her boss". ??? That isn't an explanation. Why bother even putting that in if you're just going to ignore it until it matters?

I didn't exactly have high hopes for this book, but at the same time, basic storytelling measures should be taken when you're writing ANY book. The author seems to only care that they're having sex, which would be great if she didn't throw in unnecessary details that warrant explanations and then just ignored explaining it to us. We don't know anything about the characters beyond the fact that they want to have sex, and one of them is a rude, rich stalker. That's how most of these novels seem to go, and there's nothing remarkable about this one except maybe the redundancy of adjectives and verbs ("clenching" is used way more often than necessary).

Bottom line is, I think the author could have tried harder. She clearly knows how to write, but needs to review her work harder before publishing it.

I received this book for free to review.
