Three Stars

By Amazon Customer

hard for me to understand seems like you had to go back and forth in the pages

24 of 24 people found the following review helpful.

Has your haircutter stopped listening?

By L. Fisher

This book is good if you can't get your haircutter to make the minor alterations you would like...or if she has a preconceived notion of how your hair ought to look. You will be able to go a lot longer between trips to the salon for a major overhaul...or if you are feeling a little reckless, this book will help you do the major overhaul yourself!

33 of 38 people found the following review helpful.

I hate beauty shops!

By A Customer

How I hate beauty shops! I cannot afford high end prices and do not care for hands-on care at all.[unlike a friend who goes every week].This book is perfect with easy to understand directions and diagrams, who cares if the pictures are just rough sketches.With a good pair of sheers and a comb to measure with I can finally do something with this curly head, and a little help to tidy a stray neckline from a friend. Thank you, thank you!
