This Ignited (Sense Thieves) By Corrine Jackson will certainly not just be the kind of book that is hard to discover. In this site, all sorts of books are offered. You can browse title by title, writer by author, and publisher by author to figure out the most effective book Ignited (Sense Thieves) By Corrine Jackson that you could check out currently.

This publication *Ignited (Sense Thieves) By Corrine Jackson* deals you far better of life that could produce the quality of the life brighter. This Ignited (Sense Thieves) By Corrine Jackson is exactly what the people now need. You are right here as well as you could be specific as well as certain to get this book Ignited (Sense Thieves) By Corrine Jackson Never ever doubt to get it also this is just a book. You could get this publication Ignited (Sense Thieves) By Corrine Jackson as one of your compilations. Yet, not the collection to show in your shelves. This is a priceless publication to be reviewing compilation.

Just how is making sure that this Ignited (Sense Thieves) By Corrine Jackson will not displayed in your shelves? This is a soft documents book Ignited (Sense Thieves) By Corrine Jackson, so you could download and install Ignited (Sense Thieves) By Corrine Jackson by purchasing to get the soft file. It will certainly ease you to read it every single time you need. When you feel lazy to relocate the published book from home to workplace to some area, this soft documents will alleviate you not to do that. Since you could only save the information in your computer unit as well as device. So, it enables you review it everywhere you have readiness to check out Ignited (Sense Thieves) By Corrine Jackson

# IGNITED (SENSE THIEVES) BY CORRINE JACKSON PDF

Nobody hides forever.

Ever since Remy O'Malley discovered her dual identity as a Healer and a Protector, she's kept alive by staying one step ahead of both sides in this centuries-old war. Now someone's trying to draw her out of hiding, using her kidnapped father as bait.

To save him, Remy will need every friend she's got. But as new alliances form, old bonds fray. Her boyfriend Asher is losing his powers, becoming more mortal every time she touches him. Meanwhile, Remy finds herself growing closer to Asher's brother Gabe, even as a family tragedy drives her sister Lucy farther away.

On a rescue mission to London, Remy decides she's tired of being the hunted. It's time to end this war once and for all, as Protectors and Healers alike hurtle towards a final, violent confrontation that not everyone will survive.

Praise for Corrine Jackson's Touched

"A taut page-turner. . . Teens will thrill to the romantic tension of an attraction so destructive the couple can barely touch." --VOYA

"The characters are so realistic; you can't help but imagine yourself as one of them. Thrilling and chilling!" -

Two thumbs up, you won't want to miss this one!

By A Book Obsession..

One of the best things about this series is both the world behind it and the progression the characters make as they navigate it. I love how every Remy thought she had things figured out, something new would come along or something would change throwing a wrench into things. Not only did this keep things interesting, but it only made me fall for Remy more as she continued to persevere and stand up for what she thought was right no matter the obstacle thrown in her path. And boy let me tell you there were some major obstacles this time around. Everything really came to a head, and I loved seeing it all come together one last time to blow things out of the park.

I'm not the biggest fan of love triangles. When they do pop up in books, generally I'm loyal to a core, choosing the first guy and sticking to him throughout. However, that wasn't the case here as I feel head over heels for Asher's brother, Gabe in the previous book. After Asher dies, Remy and Gabe become very close and you can see how much he cares for her, but things never move past just "closeness" as Remy's still hurting so much from her loss. I understood that and loved Gabe all the more for not rushing things. But of course at the end the rug got ripped out from under me when it turned up Asher wasn't gone after all. Don't get me wrong, his death was devastating, but the author handled the healing and transition to Gabe so well that I wanted only Gabe for her. Unfortunately IGNITED opens up with the love triangle in full force as Remy and Asher try to reconcile who they were and who they are now, with Gabe mixed in there too, leaving me more than a little frustrated. It was painfully obvious things were more than over between the two of them, as Asher just couldn't cope with her making him human. Gabe on the other hand never once faltered, and I have to admit wanting to yell at Remy more than a few times to wake up and see. But don't get me wrong, I do think the whole situation was handled very very well from a writing stand point as it was very realistic and there wasn't any sudden changing of feelings. A definite win in my book.

It's always bittersweet to say goodbye to a series I've loved, but I do enjoy it when that series ends with a good send out. One where you close the book on a sigh of contentment, and that definitely was the case here. Would I have wanted more from this series and world? Sure, as it's really well written and the characters suck you right in. But despite my wish for more, I'm very satisfied with the way things turned out and want to give the author major kudos for doing a great job pleasing this very hard to satisfy with endings reader. Two thumbs up, you won't want to miss this one!

a great conclusion to the series

By Melanie Nichols

Overall, a great conclusion to the series!

I love Remy. She's a character that has a great balance of strong and vulnerable. Too often heroines in these types of books are either super emotionally weak or they're ridiculously strong. I find myself frustrated because they either collapse in on themselves or they shrug things off way too easily. Remy is someone I feel for and enjoy reading her story. Though she's in a fantasy world, her struggles feel real and endearing.

The shifting dynamics between her and the two heroes was well done. In this book, we see how Asher's torture at the hands of Franc has changed him and how it effects his and Remy's relationship and the repercussions for them and for Gabe. I have to say that Asher fell dramatically in my opinion, while Gabe stole my heart away...and yes, I realize how ridiculous it is to say that about fictional character, but he did!

The plot moved a little slow in the middle of the book. This story focuses on Remy and her group trying to rescue her dad, Ben, but they do spend a lot of time sitting around waiting for things to happen. While mostly this time was filled with great character development (which I loved!), there were times when it lagged a bit.

I loved the ending. Jackson spent quite a bit of time winding down the story and it really worked in this series. It gives a great sense of closure without everything being wrapped up in a cute little bow as they all ride off into the sunset. It feels like they've reached a moment of peace and bliss and have been able to assure themselves some peace, but there are still a lot of issues in the air and sadness. I liked it because it gave time to show the characters dealing with the fallout of the final climax, rather than just immediately ending the story.

The mythology was a little more convoluted in this book. It introduces a new concept--the Pheonix. It was a little bizarre and I'm not entirely sure it really fits in well with the rest of the story. It felt a little tacked on, unnecessary, and a bit inconsistent. It made it sound as though only a Pheonix could heal a Protector's immortality and the Healer-Protector hybrids could only do it with someone they bonded to, but there are many times where Remy was able to heal the senses of Protectors without being bonded. And I think the idea of the Protector's immortality was a bit inconsistent. It was made to sound as though the Protectors had superhuman abilities pre-immortality (not as strong as after attaining immortality, but strong none-the-less), but when they start getting healed by Remy, they turn into normal humans and lose things like the mind-connection bond and their speed and strength. It didn't make much sense.

All that aside, I loved the series and thoroughly enjoyed it. Even with the few little issues here and there, I really enjoyed it. It's cute, dramatic, and really fun all at the same time.

Thrilling Conclusion to a Fabulously Original Series

By Amazon Customer

In this exciting finale, Ignited will captivate fans and have them rushing to see the conclusion of their favorite characters. Ms. Jackson takes readers on a thrill ride that they never want to leave. This book picks up several months after Pushed ended. Asher, Lucy, and Remy are on the run, trying to avoid being captured by Remy's grandfather, Franc, but also trying to find her and Lucy's father. Things take a turn for the worse between Asher and Remy, and things do not look good for them in the beginning of the book. Asher is clearly hiding something, as he won't talk to Remy, and he is extremely distant. What does this mean for Asher and Remy? Will they find her father? Will Remy give her grandfather what he wants, and give herself over? Well, you'll have to read to find out, but every one of those questions is answered by the end of the story.

One of my favorite aspects of this story is the characters. Remy has always been an extremely strong, kick-butt character, but in both Pushed and this novel, she shows a remarkable growth. She learns that it's okay to ask others for help, and that she isn't all alone. Remy learns that it's okay to let people in, and sometimes you have to let others go. Finally, she realizes she can't take on every single problem, because she's only one person. Comparing the Remy of this book to the Remy in the Touched is simply amazing, and shows how gifted Ms. Jackson is with her writing. She has created a complex character that shows true growth in a realistic manner. Not a character that instantly changes everything about herself because of a certain person or event. Asher, who I loved in Touched kind of got on my nerves in this one. If he would have talked things out with Remy, instead of pushing her away, I feel like they could have sorted things out earlier on. Gabe, who I fell in love with in Pushed, really took center stage in this novel. I loved how he interacted with Remy, and he truly compliments her in every way. In the second book in this series, I was still rooting for Asher and Remy, but by the end of the second book, Gabe had wormed his way into my heart. Because of this, throughout Ignited, I wanted Gabe and Remy to be together. They have many cute moments, and I loved every single scene with them together.

The writing in this book is phenomenal, and the world that Ms. Jackson has created is simply mind-blowing.

It's completely unique and very refreshing to read. Every fight scene is executed perfectly, and the heartbreaking moments are tear-inducing. There is a lot of action in this book, and with all that action and danger, some characters pay the ultimate price, and don't make it out alive. There is one death in particular that is very moving and tear-jerking. I was very sad to see this character go, but it was a very touching scene, nonetheless.

This is a definite must read for fans of the Sense Thieves series. You will not be disappointed by the ending, as it will leave you with a smile on your face. I absolutely loved this entire series, and I will be re-reading these books for years to come. Add this to your TBR list now! Happy reading :)
