Exact phrases to develop your sense of humor, master witty remarks, make people laugh, and be funnier – even if you’re not naturally funny. Laugh Tactics is full of strategies that dissect, break down, and analyze all of the types of humor that you’ll encounter in daily conversation – stuff you can really use with people you talk to. We’re not all trying to become standup comedians, and this isn’t a book about ha-ha jokes with setups and punch lines. Learn to simply make a better impression on people, put them at ease, charm them, and make them smile with you. Learn witticisms, quips, retorts, comebacks, and wisecracks without being cheesy or corny. Don’t worry if you feel like you’ve never understood humor or how to be funny. I’ve done the work for you and analyzed everyone from comedy writers to standup comedians and given you step-by-step, complete guidance to use common joke structures in everyday situations. Adaptable to any premise, topic, or setting! Strategies to instantly be clever and witty and sound like a world-class comedian. Patrick King is an internationally bestselling author and sought-after Social Skills and Conversation Coach. He teaches building rapport, and a major part of that is using humor to connect with others – shared moments of laughter are incredible bonding moments, and you’ll be able to create them without being "that guy/girl". What techniques will you learn to make people laugh spontaneously? •What makes an impactful comedic delivery and storytelling. •How to use irony and sarcasm conversationally. •How to create and build a banter chain with others. •Injecting role play into any situation. You will also learn the following: •How to play on people’s expectations and sense of contrast. •The art of misconstruing. •Why relatability is so darn funny. •The famous “comic triple.” Humor is the highway to the relationships you want in life. It’s not just hilarious jokes and mastering laugh tactics. When you can make someone laugh, you create a shared moment and experience that leads immediately to rapport and friendship. Humor is the ability to lighten people’s moods, ease tension, provide comfort, and give perspective in tough times to make everything okay. 100% proven and replicable techniques to be interesting and funny, broken down for your consumption and use. Great for breaking the ice and entertaining people

By Brian Kwa

Laugh Tactics is wonderful because it calls out comedy and being funny for what it is, which is just patterns, structures, and a different way of thinking about things.

The author gives some great examples, but the best is simply, if someone asks you how the weather is, you can choose to answer literally, or you can choose to answer in a variety of other ways... because people don't really care about that answer. It's just information they can look up, but this is a chance to engage and make people laugh that we are all not paying attention to! So many times this happens in daily work and life that we don't notice it...

But that's what Laugh Tactics is a great introduction for. It shows you those small ways you can be funnier, day by day, and not in a cheesy way. I don't want to be "that guy" when trying to be funny, so this is a great guide.

Tried lots of tactics from the book already and they've all gone great!

By Amazon Customer

I loved this book and here is what is great about it. It's about ways to be sly and clever in real life, not if you are on some stage and trying to tell jokes to an audience. It's about how you can be funnier in real life with real friends and real family, not to strangers. It's great! Lots of tips on how to create those small witty remarks and comebacks that the real comedians DO use, but how to do it in everyday life.

I really liked the parts about relateable things being funny and how to misconstrue things to use for your comedic advantage. Just a great way I never thought about before and it immediately can lead to better and funnier conversations!

By Stella Galloway

Really great because it provides essentially a structure for essentially being humor. Just ways to break it down, and even make it formulaic.

I'm really not a funny person by nature but I have found that just by applying some of these strategies I am getting more laughs!

Being funny on command is essentially an accurate way to put the result of this book.

Word of caution that it does take some effort and practice, but of course it does right? Chapters 4, 7, 9, and 15 were my favorites.
