Great writer however unprofessional she may be.

By Vex Bex

Pamela Ann is a great writer. However, she has no sense of time. We are ALL over the serial crap Pamela, get a clue. Above in the description you will read that book 2 will be out in May and Book 3 out in June. Book 2 came out in August and Book 3???? Who the hell knows when that one will be out. As of this review, it is still not out and there is no date to be found. THIS is exactly why I do NOT like serials. Writers should be required to complete the series BEFORE publication. That way she can get her beloved money and we can get our books on time every time. Pamela has done this with almost every series she has started. The only way to get her attention seems to be lowballing the stars. So. While I do love her writing. I am sick and tired of the serials and the disappointing lack of follow thru. So just like her Encounter trilogy, this one is still incomplete and there is no time frame for it to be completed. Even if there were, she's already blown 2 deadlines for this series and the Encounter series was supposed to have been finished by now. Guess what? That one is incomplete as well. Buyer beware.

Very short but interesting

By BootLover

Very interesting. My only complaint is the short length of the book. It felt like I purchased one more chapter to part one. Guess will have to wait about another year for the conclusion to the story.
