Leonard, Michael McClure In couple of time, you have possessed your referred e-books as yours.

MYTH AND KNOWING: AN INTRODUCTION TO WORLD MYTHOLOGY BY SCOTT A. LEONARD, MICHAEL MCCLURE PDF

Myth and Knowing is by far the most comprehensive world mythology textbook. The text/reader format provides both jargon-free discussions of current themes and thinkers in the ongoing scholarly conversation about myth and a broad selection of complete myths chosen for literary merit and the cultural sensitivity of their translations. Rather than being genre-driven, the book emphasizes the psychological, religious, and cultural meanings of myth, presenting these with the intent of fostering in students a love of literature.

Myths Made Boring

By Terri Merritts

I realize that this is a textbook but how do you take the magic and wonder of myths and turn them into drudgery? Scott Leonard has managed to do this somehow. I love myths and have a house full of gorgeous books of mythology from a wide variety of cultures including Egyptian, Greek, Roman, Celtic, Viking, Native American, Mayan, etc. Myths have always been something I love to read over and over but I could not get away from this book quickly enough. There is mostly academic discussion of myths and the concepts are not well explained at all. The myths included are not the exciting stories they were made to be but are mainly a combination of description about the myths and a few lines of the myths. If I were teaching a course in mythology, I'd scrap this altogether and just use books of myths along with lectures.

Needed for class

By Mik06

This book was not as it was described. It was supposed to be in good condition but it looks like it's about to fall apart. I only ordered it because I needed it for my class and I don't like using the Ebooks I prefer to have a hard copy.

Needed for Class

By CC

I don't really have a lot to say. It was a textbook required for my class. Condition of the book was as expected.
