Yet, with this soft data, you could appreciate reading in the downtime even in the gaps of your tasks in office.

PANCAKES TASTE LIKE POVERTY BY JESSICA VIVIAN PDF

Lying sprawled in the driveway and suffocating from a panic attack, covered in garbage while three small children - the only positive to come out of your failing marriage - play happily in the house you're soon to be evicted from really makes you reflect on your life choices. "Pancakes Taste Like Poverty" is an honest peek inside the mind of Jessica Vivian, single mom of three, who after fleeing her home and marriage with no income, belongings or education sought out to rebuild herself, piece by piece, from the inside out. A candid and inspiring tale for anyone starting over, "Pancakes Taste Like Poverty" is a hilarious and heartbreaking journey from broken to brave.

This book is an absolute steal at this price! You will love it!

By SavannahYankee

This book is fantastic. Everyone can relate to it in at least some way because it contains a little bit of everything. There are ups, there are downs. This is real, unscripted, nonfictional life, folks. You want to know if other wives are as annoyed over certain things? Read on. You want to know what the feelings you'll be experiencing post-separation? Read on. Want to know how to make sure your kids come out the other end better than ever? Then read on friend because Jessica has raised three of the most kind, intelligent, beautiful souls you could ever hope to encounter.

If you need guidance, or maybe just a laugh, J-viv is your girl.

An Unexpected Gem. Fans of JK Rowling's Life-story Should Read This.

By Jenn Cavallari

This is an important work...but not just for the reasons you'd think.

In her wincingly candid account of her own post-divorce self-deconstruction and rebuilding process, Miss Vivian uncovers a horrorshow of some basic truths about everything from a chasm of gender inequality to the horridly inadequate social safety-net in place for single moms. Reading this book makes it all too clear to see the complex and multifaceted problems that face women with children who are trapped in bad marriages, in a state of poverty, in a social-structure whose parameters don't allow or afford them the opportunity to escape mentally, physically or emotionally unscathed no matter how hard they work at it. No matter how

disciplined they are at doing what's right. Not without outside help. Not without miracles-worth of outside help.

There exists, thankfully, a movement of socially-conscious people who vote and care about social responsibility, of widening the safety-net, of dispelling the tropes and myths of "the welfare queen" but I wonder how many of them really have an intimate picture of that struggle in their minds--not just from the perspective of a few anecdotes about hardworking people who simply fell on hard times and need help getting back to their feet--but of the reality that there exists a population of bright, prodigal women who have so much to contribute, condemned to be stuck in the mire because they never had that footing in the first place...or because every path along their route is littered with walls and obstacles.

Not since Barbara Ehrenreich's "Nickel And Dimed" (a work I highly recommend as a companion to this, by the way) has a work of nonfiction made the trap of American poverty so abundantly clear...but it's more than just that. It's more than just the numbers or the scarcity. The statistics, the day-to-day realities. These are also Miss Vivian's feelings. This book depicts the inner struggle--often self-contradictory, even--of a mother, a thinker, a lover and home-cooked philanthropist. A lady, like each and every one of us, with aspirations to change the future for herself, her children and the community...for the better of us all.

Never preachy, this was a page-turner. I read the book in a weekend and found myself rooting for her; sometimes angry, sometimes in tears. At times, on the edge of my seat, hoping that each effort, each battle would net her the Big Break that makes the whole war worthwhile and cracks open the world like an oyster for her own indulgence.

I hope this writer reads her reviews because I'd like her to know that in me, she's got a fan. I await her next work with adoring anticipation.

A true story

By Andi Murdock

This is not a self-help, feel-good, cliché dripped book about how awesome life really is. This is a book about a real woman facing real life and that isn't always kind and it can't always be fixed with chocolate and cocktails. Jessica Vivian holds nothing back, and opens herself wide for the world to see and take away from it what they will; whatever inspiration, whatever spark of truth. The pages of this story hold more than the words on them.
