The orks of the Red Waaagh have come to the Sanctus Reach and death follows them. As Gruk Face-Rippa and his green tide fall upon Imperial worlds, it falls to a few warriors to stand against them. The Space Marines of the Obsidian Glaives make a final stand against the alien hordes, while the brave men of the Astra Militarum and the noble Knights of Alaric Prime struggle to repel the greenskin invaders from their planet. But hope is not lost, as the savage and noble Space Wolves arrive to bring an end to Gruk and his rampage. Sanctus Reach contains the novellas 'Evil Sun Rising' and 'Blood on the Mountain' and six short stories exploring the various fronts of the vicious war for the Sanctus Reach.

Coping with Ork invasions

By JPS

This title is a collection of eight short stories and novella which tend to go two by two.

The first two, for instance, are about the Obsidian Glaives' Chapter, and their heroic but doomed resistance against waves of invading Orks while defending their fortress-monastery. I particularly liked the first of these in which the Chapter unleashes its most precious treasures and relics of its glorious past (I will let you find out what exactly these treasures are!) in an attempt to turn the tide.

The next two short stories are about hives of the planet Ghul Jensen, one attacked by Orks while the other was the victim of an uprising by a sect imitating Orks. It is besieged by loyal Imperial Guard forces trying to

recover control of it before the real Ork invasion takes place. Again, I particularly liked this second story because of a certain Imperial character send on a suicide mission.

Stories five and six are my favourite. They are perhaps the most original of the collection and are also somewhat amusing. This is they are both told from the perspective of the Orks themselves. Their rather interesting dialogues and names are likely to make you smile. One of these stories also includes a rather superb battle between Garguants – the Orks giant machines that are the equivalents of imperial Titans. Another great scene is the battle between the Ork machines and the mechanical Knights of Alaric Prime. The main original feature, however, is a rather fascinating story about Ork “Mekbosses”. These make up what is perhaps the most dangerous component of the Orkish forces because they are innovative and one of these will in affect take control of the invading force before the end of the story.

Fans of the Space Wolves will be particularly gratified by the last two stories, both of which include Ragnar Blackmane and his Great Company. The fist story is about a squad of Space Wolves and its Rune Priest in particular that are chased up a sacred mountain (hence the novella’s title “Blood on the Mountain”) and hunted by a horde of Orks lead by a possessed gigantic one. A particularly interesting feature is that this Ork “warboss” has enslaved a Knight by using the Powers from Chaos. Those linking stories with war psykers are likely to appreciate this one. The second story features the same Rune Priest (one Ulli Iceclaw) reporting on a battle where the impetuous Lord Ragnar Blackmane had to be bailed out by Lord Grimnar himself and his Wolf Guard (all in Terminator armour and fur pelts, of course).

Out of these eight stories, readers (myself included) will find some more likeable than others. I did not, however, find any real weak ones. I would probably have rated this collection something like 4.6 or 4.7 stars if this had been possible. Since it is not, I will go for five stars, because I feel that four stars would be somewhat harsh.

Not Bad

By J.R.S

It is a good book to have, but I did find some spelling errors.

Five Stars

By david anderson

Great story and I love the Orks point of view!
