"Ellery is like some kind of hot bed for gay men....."

By Nic

The Ellery Mountain series consistently delivers, each book emotional and heartwarming. I have enjoyed each of the pairings and loved all the characters, from the very first book to this, the seventh in the series.

This is the story of Mikey, now all grown up, a successful model who no longer lives in Ellery, instead Michael (as he is now called) travels the world modelling for designer labels, only returning to town infrequently. He has found success, fame and fortune but he is still haunted by the attack on his life six years before.

Recent events have further shaken Michael and he finds himself with some choices to make. His contract is up for renewal and he needs to decide what his future holds - more modelling or a return to study? He is also running from Alex, his agent and the man he had started to fall in love with. Michael returns to his Nan and friends in Ellery while he makes some decisions. Luckily Alex is a determined man and isn't going to give up on Michael and visiting his friend Jason (the actor and old client) gives him reason to stay in Ellery.

I must admit that I found Michael's response to Alex's actions in Paris frustrating - obviously he was still severely traumatised by his original attack, otherwise he was totally overreacting - one of those situations where you just want to shake the character and make them listen to what the other character has to say!

This book gives opportunity for the men of Ellery to help Mikey overcome his fears and put his past behind him. It is a story of friendship and support and healing. There are some warm and emotional moments, some romantic moments (one of the couples has some big news) and happy endings all round.

Best line from the book.....

"Ellery is like some kind of hot bed for gay men, and I'm sure Jason will be able to hook me up."

Most amusing....picturing two grown men with overnight bags, two wheeled cases and a dog, traveling for hours in a Porsche - the boot (trunk) and interior space must be a lot bigger than I remember!

I received a copy of this book from the author in return for my honest review.

Two beautiful men with a barrier between them

By B ME

Michael comes home to Ellery to face his past, only his present keeps intruding in the form of his agent Alex Casey, who won't take no for an answer.

In this installment of Ellery Mountain we meet a character we have encountered before, just more grown up and successful. Mikey is a young man who lived with his Nan when we met him before, we knew he had been attacked, beaten, stabbed and doused in petrol (gas) and left for dead (although not set alight). Now we meet him again as a very successful male model who has again been the recipient of violence that has brought up the earlier attack. He is off kilter and running - but he can't run far enough to get away from his agent Alex.

Alex loves Michael, he is heartbroken that by trying to protect Michael he put him in harms way. He lied by failing to tell Michael of the threat he is seen as betraying Michael's trust and has lost their budding relationship and their professional contract.

How can Alex fix this when Michael has told him to keep away and they are done?

Meanwhile Michael is having some flashbacks and memories about the attack. It was always assumed someone passing through attacked him in this close-knit community but he remember something that leads to a local.

This is a nice wee read, nothing earth shattering and not my favourite in the series. Michael is a bit annoying because he can't see that although Alex made a mistake, and admits it, they still love each other and there was no ill intent. Good book for a weekend.

Good finale to the series

By Becky C

The time has finally come where we get Michael's story in The Agent and The Model by RJ Scott. We met him early on as a young teen in Ellery who was brutally attacked. He left town and has become a famous model in New York. Six years later, he's coming back to Ellery to visit his Nan and somehow his agent Alex has decided to tag along. Alex is actually riding with Michael to see his close friend Jason and attend a big party, but instead of driving alone he manages to get Michael to drive him. It's clear they had some kind of relationship in the past, but they are not on good terms. You can sense Alex is trying to break the ice but Michael is truly angry and clearly hurt.

At first I wasn't sure about Alex but I think the way he treats his dog makes me think he has to be a good

guy. Either way Michael wants nothing to do with him and is downright nasty. As Michael tries to come to terms with his past attack, the walls he built to protect his heart from Alex and starting to crumble. There are a lot of hints early on something bad happened but it takes many pages in the book before we learn what. I think it was almost too many pages because I felt like I was in the dark about something very important to the characters that seriously affected their relationship.

I enjoyed having all of the past characters in the story and all being together for Jason and Kieran's party. Watching Avery and Travis warn Alex about hurting Michael was the best. Overall the story wasn't as impactful as I was hoping; it just felt a bit rushed. Michael's attack is solved, but was a bit anticlimactic. Michael and Alex's relationship wraps up nicely but the story just felt incomplete especially since it is the last book of the series. It is definitely a must read for fans of the Ellery Mountain series. I'm sad to see the series come to an end.
