Inspirational and Practical

By B Watson

There's been plenty of times I've asked myself "what's my purpose and destiny in life?" I'm enjoying life, however over and above being a husband, dad, and employee, what difference can my life make in the lives of others? As you get older, you certainly want your life to positively impact those around you.

The next question though is "how?" How can you discover, and then make your life more purposeful? As the author says, "don't be the person who ends up looking back on your life with regrets." He also says "A life without purpose is powerless."

In one helpful exercise, the author challenges you to write a one-sentence statement of what direction you'd like to go in life. He then systemically goes through an approach to help you get there. He also helps to break down your small and limiting beliefs.

This is no flash in a pan method. The author talks about the time, patience and dedication you'll need to do amazing things. If you want more from your life, this book will help you get there.

Ayodeji Awosika wants you to revolutionize your life!

By Matt Gersper

“The graveyard is the richest place on earth, because it is here that you will find all the hopes and dreams that were never fulfilled, the books that were never written, the songs that were never sung, the inventions that were never shared, the cures that were never discovered, all because someone was too afraid to take that first step, keep with the problem, or determined to carry out their dream.”—Les Brown

Ayodeji wants you to reach the end of your life having lived out your hopes and dreams, written your books, sang your songs, and fulfilled your destiny.

He's distilled a great deal of wisdom into a quick read. The Destiny Formula is a book you'll want to read over and over again.

Success is all about personal responsibility. He explains we all have decisions to make: Choose The Lottery Approach or The Sculpture Approach... The Epicurean Attitude or The Stoic Attitude... Purpose and Priority or Aimless Busyness... Successful friends or Unsuccessful friends...

His Contrast Strategy reminds me of something I have observed called the Power of Fools:
<http://www.happyliving.com/2015/04/01/the-power-of-fools/>

Success is about choosing a life of continuous learning and improvement. Living your successful life without arrogance or apology.

He writes with direct, straightforward language. He's organized advice in frameworks of thought that you can apply directly to your life.

With lifelong learning, doing the work every day, anyone can transform themselves into their personal vision of success. He emphasizes; “To get what you want, you have to deserve what you want”. Never forget it.

Ayodeji wants you to happily, patiently, and purposefully slug it out one inch at a time day-by-day until you reach your destiny!!

An inspiring How-To Guide for Creating a Fulfilling Life

By amazoncust

Every section of this books rings true for me. I relate to all the fears, mistakes and misguided thinking – thinking that can only be outgrown by living, aging, and making mistakes. If I had it to do over, I would use this book as my roadmap - it's a guide for finding your path, thinking clearly and positively, developing a relationship with learning that will support lifelong success, dealing with obstacles and more. As it is, I will apply the steps detailed in this book to keep me on the path to a more powerful and purposeful life. I recommend this inspiring book to anyone whose mind is open to behaving in new ways for the sake of happiness and fulfilment. The author has a calming and convincing style. This is a great book.
