# THE DHARMA REVELATION BY CHRISTOPHER HALT PDF

When Daniel Sheppard entered the priesthood, he thought he finally found the peace he had sought his entire life. His thirst for knowledge and his desire to question everything sometimes ruffled feathers within the church, but his passion and inspiration stimulated his parishioners. His peace became short lived when he uncovered a conspiracy within the church. Daniel was resistant to become swept into these events, focusing instead on his work in the church. It wasn't until a curious child came into his life that he began to question everything. Going against the will of the Archbishop, Daniel joined Isisa group of religious scholars. Together they sought answersthey sought a Golden Thread; a commonality which linked all religions together. Along the way, they discovered that their spiritual progression was tied to their overlapping beliefs. But Daniel would never have expected this new path to have led him toward one of the most amazing and wondrous spiritual revelations of the modern era.

Great on so many levels...

By David M. Wozniak

The strength of The Darma Revelation is that is works on so many levels. On the surface it is a good vs. evil glossy page-turner which is full of suspense, similar to many of the popular novels lining our supermarket aisles today. But that's where the similarities end.

Think the late Michael Crichton. Think quantum mechanics. Think collective consciousness. The story interweaves these concepts in a brilliant way, blurring the lines between great fiction and great science. There were times when I was reading this book that I felt that I was reading the most entertaining physics book that I had ever read. I mean this in the best possible way. This is the second level at which this novel works operates on, and it does so quite well.

Thirdly, think Dan Brown, but in a more reverent and inspiring light. Here, Halt takes us on a journey which challenges us to change the way we think of everything. Your religion, my religion, all religions. Could there be a common thread at work? Whether or not you agree with the author, one thing is clear: at the end of this book you will come away with a alternative view of your belief system, and you will a better person for it.

Overall, a great read.

Deep thinker meets thriller with a twist!

By My Pal Dave

I picked up this book at the recommendation of a friend. The book takes a refreshing look at the religions and the common thread that intertwines the major ones. The story is delivered using an exciting thrill ride that made it nearly impossible to put down!

I highly recommend this book to anyone seeking a greater understanding or simply looking for a great story.

The best 99 cents that I have ever spent...

By Lucinda N. Brown

What a read! This is a great story... I imagine if Dan Brown and Depak got together to write a book that it would turn out something like this one. If there isn't such a genre as spiritual thriller... there should be one. Not only is it a great story, there is a lot of information on science and religion in the book. Mystery, love, murder... it's all in this book. There are a lot of characters that are slowly developed so you can keep them straight. Halt is a true professional writer. Lets face it, some of the cheaper Kindle books are not worth downloading... this is not one of those. I have recommended this book to several friends and they have all enjoyed it as much as I did... it's a long, satisfying read.
