There are a variety of circumstances where creating a cache is a wise preparation. Natural and man-made disasters abound in our headlines, many of which can completely destroy valuable preps in a matter of seconds. With proper techniques, equipment, and methods, practically any type of critical supplies can be safely stored in a manner that is nearly impervious to the elements. The largest single threat to any cache, however, is being discovered by other people. This guide will provide the reader with several methods, including disguise, diversion, and technology to defeat even the most sophisticated metal detectors, theft, or illegal seizure. Widely acclaimed author Joe Nobody, known for his fictional works as well as highly regarded survival and preparation guides, is joined by T. Pike, USMC. During his two deployments in Afghanistan, Pike's job with the Marines included searching for enemy caches. He found a lot of them, denying his foe important weapons, ammunition, and supplies. He also developed a unique level of expertise and experience that can now be leveraged by anyone who wishes to keep their personal assets out of harm's way.

Great resource to get prepared !

By Kerry J

Joe Nonody is great !

He has a no nonsense style of giving you the information to make informed decisions.

This book is filled with the whys and how's to help you be prepared for many different situations that could happen.

Do not put all your eggs in one basket.

I dig it!

By Richard

Excellent and informative. Much bigger scope than what the titles implies. I thought it was going to start off stupid (judging from the topic, not the author who is well known and highly experienced and credible) like burying PVC tubes in your rose garden. Very well written and enjoyable to read.
